

FREE DEMENTIA CARE FOR ELIGIBLE PARTICIPANTS

Support for individuals with dementia and their caregivers at no additional cost.

GUIDE Model of Care

Guiding an Improved Dementia Experience

A program for individuals with Medicare (Part A & B) offering ongoing support focused on improving the quality of life of the individual with dementia and their caregiver.

GUIDE participants receive the following:

- Personalized support to help the participant stay home
- Direct communication with a Care Navigator who provides ongoing caregiver education and support
- Annual clinical assessment and dementia symptom management

GUIDE is a program of Aging & In-Home Services of Northeast Indiana.

Eligibility:

- Fee-for-Service Medicare (Part A & B)
- A potential diagnosis of dementia or exhibiting cognitive impairment

Not available to individuals enrolled in Medicare Part C (Medicare Advantage), PACE or receiving Hospice.

"You are not alone. Whether you are caring for a loved one or are living on your own, there is no failure in reaching out for help."

The GUIDE Care Team will guide you through your journey with dementia so you can stop worrying and start living."
